SuperVision

Document Vault

Easy to use, electronic storage application designed to provide fleets instant access to their driver records

Efficiently store all driver-related documents in a single, secure location

Document Vault allows customizable electronic driver document storage with the capability to designate a folder structure for each driver. The software enables fleet managers to accurately track individual driver profiles, driver records, employment files and other essential fleet information, all easily found and maintained in one location.

Did you know?

8 Driver Qualification Files require 8 different documents for compliance

12M 5 of these documents expire after 12-24 months and need updating

5K for a 1,000 driver fleet, that's 5,000 expirations to worry about per year

Take Document Vault for a test drive! visit eSuperVision.com

Secure document storage

Securely store electronic documents for each driver, eliminating paper files. Create a customized folder structure or use preconfigured folder templates including MVR and CDLIS folders.

Full integration

Integrated with License Monitor to automatically file MVRs, CDLIS reports, License Status Reports and more.

Proactive alerts

Use expiration dates to get notification alerts at predefined time intervals before the documents expire.
